

CSA Expert Relocation – Database Backup

1. Login SQL Server Management Studio

Select { Start > All Programs > Microsoft SQL Server 20xx > SQL Server Management Studio }

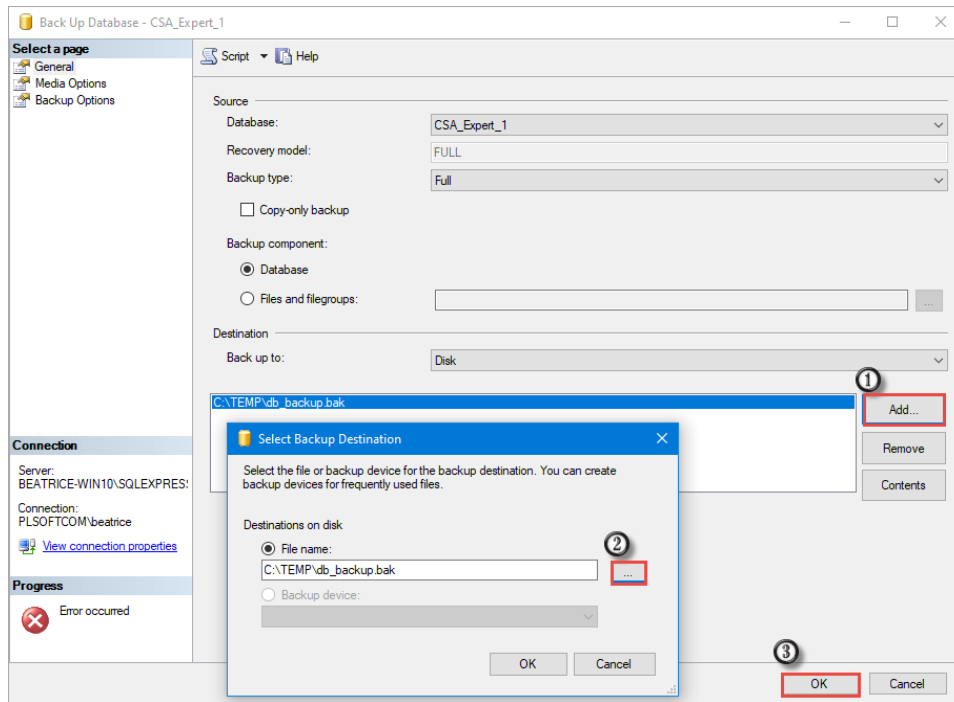

2. Right-click your database, then select { Tasks > Back up... }

CSA Expert Relocation – Database Backup

- Click the [Add] button to change the backup destination, then click [OK] to start database backup.

- Copy the backup file to a device or location that can be accessed by the new database server, e.g. a USB drive.
